**APPROVAL OF THE BUILDING 1/36 CHANGE OF REPORTING FREQUENCY FOR THE SOIL VAPOR SAMPLING - THE COMPANY, FORMER C-6 FACILITY, 19503 SOUTH NORMANDIE AVENUE, LOS ANGELES (SCP NO. 0410; SITE ID NO. 1846000)**

Dear Mr. Scott:

We have received the "Quarterly Report No. 31, Third Quarter 2009 Full-Scale SVE System, Boeing Real Property Management, Former C-6 Facility, Building 1/36 Area, Los Angeles, California", (Report) dated October 30, 2009, prepared by Haley & Aldrich, requesting the change in soil vapor sampling reporting frequency from quarterly to semi-annual. The full -scale SVE system was shut down on September 15, 2009, in order to perform soil vapor sampling and evaluate offgassing and associated migration of vapors through the soil column. Because the SVE system will remain off, and restarting the SVE system will be based on the results of the soil vapor sampling, Boeing request that the frequency of reporting be reduced from quarterly to semi-annually.

We have reviewed your request and approve the change of reporting frequency from quarterly to semi-annually for the soil vapor monitoring conducted at the subject site. As indicated in the Report, should the SVE system be restarted, the reporting frequency would return to quarterly. The next report documenting the results of this soil vapor sampling is due to this Regional Board by **July 31, 2010**.

If you have any questions please call me at (213) 576-6738 or email at [atownsend@waterboards.ca.gov](mailto:atownsend@waterboards.ca.gov).

Sincerely,

Ana M. Townsend  
Water Resources Control Engineer  
Site Cleanup I Unit
